This printable is for personal and educational use only. Redistribution, resale, or modification of this material is strictly prohibited without written permission from the creator.

Ways to Use:

This pack introduces children to curved uppercase letters: O, C, G, and Q. Activities progress from simple prewriting strokes to independent letter formation, giving children confidence at every step.

Materials

- Print on regular paper, card stock, or place in page protectors for reuse.
- Provide crayons (recommended), pencils, or dry erase markers.
- Optional: Pipe cleaners, string, or any other loose parts for hands-on letter building.

Step-by-Step Guide

1. Prewriting Sheets (pg. 5–17)

- Start with tracing circles and curves. Encourage beginning at the top and moving counterclockwise.
- Move to “add your own” curve practice.
- These exercises build smooth hand motion and prepare children for circular strokes.

2. Bubble Letter Tracing

- Each letter has a large bubble outline.
- Encourage sky writing first: draw the letter in the air with a big arm movement, saying the strokes out loud.
- Children trace inside with a crayon, marker, or alternative material (pipe cleaners, string, play dough, or loose parts).

3. Progressive Tracing Pages

- Line 1: Two large letters to trace.
- Line 2: Two medium letters to trace.
- Line 3: Two small letters to trace.
- Line 4: Blank guides for independent writing.
- Tip: Some children enjoy calling this “Three Bears Practice”—Papa Bear, Momma Bear, Baby Bear.
- Make it more fun by switching colors each line or letter.

4. Independent Practice Page

- Children write on the same handwriting lines without tracing support.
- If your learner isn’t ready, use a highlighter or light-colored marker to create your own tracing model.

Teaching Tips

- Model first: “Watch me make an O. Start at the top and go around, all the way back to the top.”
- Use verbal cues for consistency, especially for letters like G and Q that add extra strokes.
- Sky writing helps children who need big movements before fine motor control.
- Slip pages into page protectors for repeated practice. Dry erase crayons (or 3-in-1 crayons like Stabilo’s) are often easier to control than markers.
- Repetition builds confidence, praise effort and improvement, not just neatness.

More Early Writing Extensions

- On the Early Learning section of Rabbit Hole Learning, you’ll also find:
 - Dot marker sheets for each letter.
 - Letter building activities using big and little curves.

Start at the circle and go counter clockwise (like a C) and keep going to the top!

Start at the star and go counter clockwise (like a C) and keep going to the top!

Start at the star and go counter clockwise (like a C) and keep going to the top!

Color

Trace

Draw

Start at the star. Big curve around... stop at the bottom.

Trace top to bottom with the colors of the rainbow. Flip it over and you have a rainbow!

Start at the top. Big curve around... stop at the bottom.

FLIP THIS OVER so the scales make a “c” shape!

Trace the scales and then add your own to the other

Start at the star. Big curve around and keep going around..

Start at the star. Big curve around and keep going around..

Add legs to the spiders.

Add legs to the spiders.

Add legs to the spiders.

Add legs to the spiders.

Roll a six sided dice and trace one thing in that row.

Roll and Trace

Roll a six sided dice and draw one thing in that row. The last row they can decide what shape to draw!

Roll and Draw

Start at the top. Big curve around... keep going... all the way back to the top.

Start at the top. Big curve around... keep going... all the way back to the top.

This image shows a handwriting practice sheet with four sets of horizontal lines. Each set consists of a solid top line, a dashed middle line, and a solid bottom line, providing a guide for letter height and placement. The lines are evenly spaced and cover the majority of the page area.

Start at the top. Big curve around... stop at the bottom.

Start at the top. Big curve around... stop at the bottom.

This image shows a handwriting practice sheet. It features four identical sets of horizontal lines, each set consisting of three lines: a solid top line, a dashed middle line, and a solid bottom line. These lines are designed to help children learn the correct height and placement of letters. The sheet is enclosed in a rounded rectangular border.

Make a C. Straight up to the middle. Add a line across.

Start at the top. Big curve around... keep going....stop at the middle. Little line in.

Start at the top. Big curve around... all the way back to the top. Give it a kick.

Start at the top. Big curve around... all the way back to the top. Give it a kick.
