This printable is for personal and educational use only. Redistribution, resale, or modification of this material is strictly prohibited without written permission from the creator.

Ways to Use:

This pack introduces children to the curvy uppercase letters: V, W, X, Y, and Z. Activities progress from simple prewriting strokes to independent letter formation, giving children confidence at every step.

Materials

- Print on regular paper, card stock, or place in page protectors for reuse.
- Provide crayons (recommended), pencils, or dry erase markers.
- Optional: Pipe cleaners, string, or any other loose parts for hands-on letter building.

Step-by-Step Guide

1. Prewriting Sheets (pg. 5–11)
2. Bubble Letter Tracing
 - Each letter has a large bubble outline.
 - Encourage sky writing first: draw the letter in the air with a big arm movement, saying the strokes out loud.
 - Children trace inside with a crayon, marker, or alternative material (pipe cleaners, string, play dough, or loose parts).
3. Progressive Tracing Pages
 - Line 1: Two large letters to trace.
 - Line 2: Two medium letters to trace.
 - Line 3: Two small letters to trace.
 - Line 4: Blank guides for independent writing.
 - Tip: Some children enjoy calling this “Three Bears Practice”—Papa Bear, Momma Bear, Baby Bear.
 - Make it more fun by switching colors each line or letter.
4. Independent Practice Page
 - Children write on the same handwriting lines without tracing support.
 - If your learner isn’t ready, use a highlighter or light-colored marker to create your own tracing model.

Teaching Tips

- Model first: “Watch me make an O. Start at the top and go around, all the way back to the top.”
- Use verbal cues for consistency, especially for letters like G and Q that add extra strokes.
- Sky writing helps children who need big movements before fine motor control.
- Slip pages into page protectors for repeated practice. Dry erase crayons (or 3-in-1 crayons like Stabilo’s) are often easier to control than markers.
- Repetition builds confidence, praise effort and improvement, not just neatness.

More Early Writing Extensions

- On the Early Learning section of Rabbit Hole Learning, you’ll also find:
 - Dot marker sheets for each letter.
 - Letter building activities using big and little curves.

Trace the zig zags

Trace the zig zags

Trace the Lightning

Add your own lightning

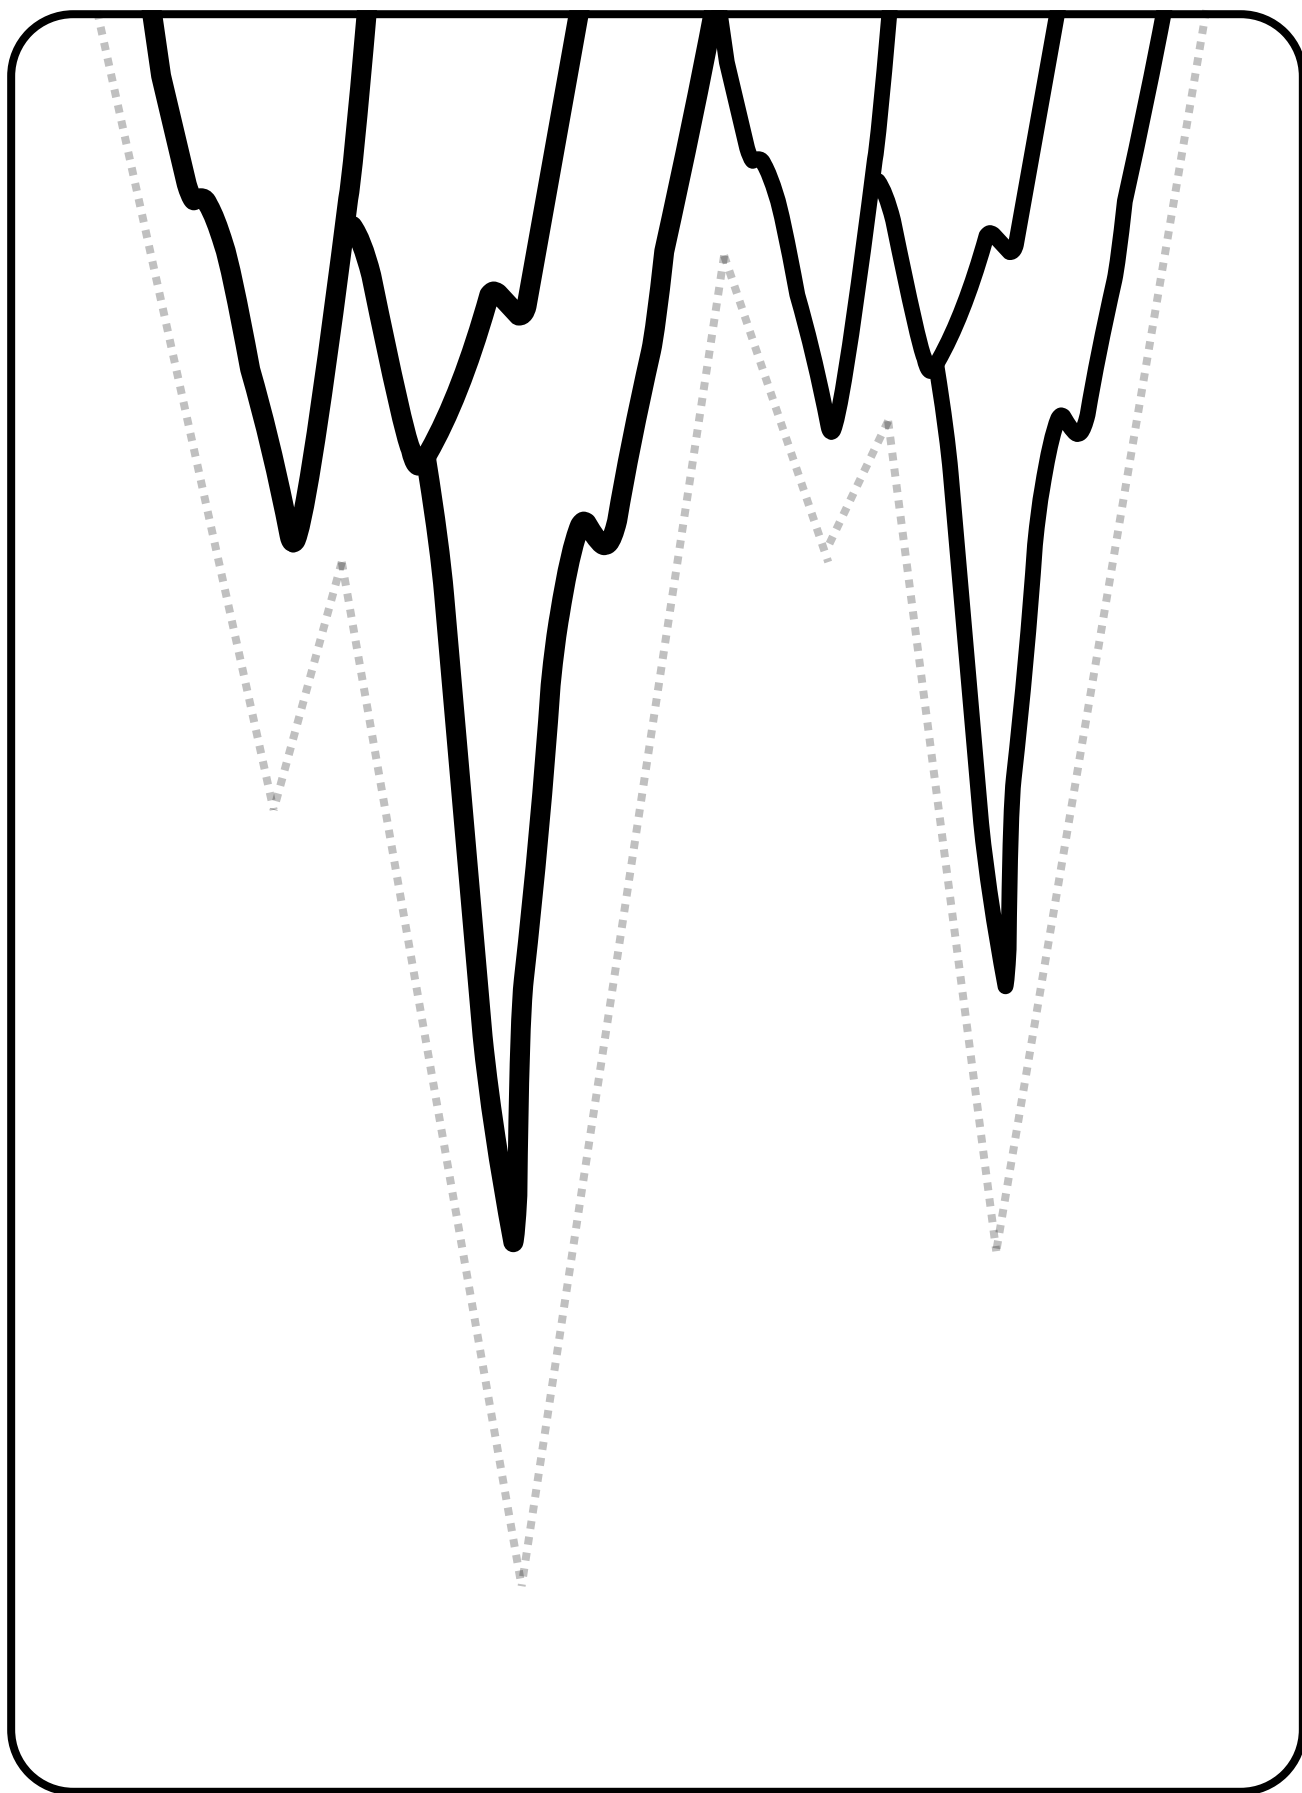

Trace the laces of the shoe.

Trace the branches and add your own!

Trace.

Slide down and come back up.

Slide down and come back up. Slide down. and come back up.

This image shows a handwriting practice sheet with four sets of horizontal lines. Each set consists of three lines: a solid top line, a dashed middle line, and a solid bottom line. The lines are light gray and span the width of the page. The sets are arranged vertically, with a small gap between each set. The first set is at the top, followed by the second, third, and fourth sets at the bottom. The dashed middle line in each set is composed of short, horizontal dashes.

Slide down. Jump to the top. Slide down again.

This image shows a handwriting practice sheet with four sets of horizontal lines. Each set consists of a solid top line, a dashed middle line, and a solid bottom line. The first set is at the top, followed by a gap, then the second set, another gap, the third set, and a final gap at the bottom. The lines are light gray, and the dashed middle lines are intended for letter height guidance.

Slide down to the middle. Jump up the top. Slide to the middle. Short line to the ground.

Line across. Slide down. Line across.
